**PUT TIME TO WORK  
IN PROFESSIONAL  
HOME CLEANING**

## **GET MORE DONE. MORE COMFORTABLY.**

Lifting, pushing, bending. There's a lot of repetition in professional cleaning — and that can mean a lot of fatigue or worse. Work-related musculoskeletal disorders (MSDs) are among the most frequently reported causes of lost or restricted work time\*. Carpal tunnel syndrome, tendinitis and muscle strains can all sideline productive employees. Our machines are designed with worker comfort and safety in mind to keep them comfortable, efficient and on schedule.

**COMFORT**

Keep your crew going with features like lighter weight in hand, portability, maneuverability and cushioned harnesses.

**PERFORMANCE**

Deliver an exceptional cleaning experience — every time, with industry-approved machines that are CRI certified and meet all LEED requirements.

**COST OF OWNERSHIP**

Keep your business running with tough, durable machines engineered to take on wear and tear. Innovative features and minimal maintenance costs save money over time.

**PRODUCTIVITY**

Your team can efficiently clean every surface, crevice and corner with reliable machines that are easy to deploy, easy to use and quick to maintain for less downtime.

**THIS IS EMPLOYEE SATISFACTION.  
THE ULTIMATE TIME MACHINE.™**
