THE ULTIMATE TIME MACHINESM

Durable Design. Quiet Operation. Maximum Performance.

Sanitaire is a member of the U.S. Green Building Council.

AIR MOVERS • CANISTERS • EXTRACTORS • FLOOR MACHINES • UPRIGHTS • BACKPACKS

Cut costs not corners with the **SANITAIRE QUIETCLEAN™ LINE**

Reduce maintenance, increase productivity and decrease operating costs.

Reduce Maintenance Time. Every minute of downtime goes directly to your bottom line. That is why we re-engineered the motors on the QuietClean™ line to last twice as long. It's also why we include insightful design elements that keep machines running — not waiting for repair.

Work in the Day Time. With the growing trend toward working longer hours and cleaning during the daytime, a quieter vacuum is a must. At less than 70 dBA, the Sanitaire QuietClean™ line lets you clean 24/7.

Immediate Cost Savings. We know that you are under pressure to reduce costs. Our bagless models eliminate the need to purchase and manage bag inventory for

CRI SEAL OF APPROVAL

2 YEAR WARRANTY

The Sanitaire Promise
of Performance™

employees - saving you and your staff time and money. Most QuietClean™ models also feature washable filters to further cut costs and help maintain a cleaner environment.

Air Clean. Go Green. Most QuietClean™ models have a Sealed HEPA filtration system that captures 99.97 percent of allergens and pollen down to 0.3 microns. All models have the CRI Seal of Approval and meet all LEED guidelines.

Quality Guaranteed. QuietClean™ uprights are built in our own North American facility to withstand the rigors of commercial use, day after day. All Sanitaire vacuums are certified by Underwriters Laboratories to ensure quality and safety in components, operation and design. In addition, all QuietClean™ products are backed by the two-year Sanitaire Promise of Performance. It warrants parts, materials, workmanship and labor to further reduce maintenance costs and downtime. Most importantly, we are supported by a network of more than 1,200 warranty service centers throughout the United States.

Cut Costs Not Corners

Quiet, durable, high performance models fit any cleaning need.

Two-Motor Uprights Set the Standard The innovative Sanitaire QuietClean™ line includes multiple platforms. The powerful, 2-motor uprights are durable, versatile, easy to use and a breeze to maintain. Available with features such as large capacity, easy drop-in bag system, quick-change power cords and sealed HEPA filtration, these cutting edge cleaners are exactly what you need for your business.

A New Classic. Our traditional upright model brings with it decades of proven quality with new innovative features. Just flip the switch and go from Normal to QuietClean™ mode without any substantial trade-off in cleaning performance.

Maneuverability Refined. For those who need to move in and around a multitude of obstacles, look no further than the Sanitaire backpack cleaners. They're lightweight, powerful and comfortable, equipped with a harness that quickly adjusts to any operator. The wide assortment of backpack accessories includes curved aluminum wands and multiple tools for all of those hard-to-reach places.

Powerful Tools Daytime Decibels

Smooth and Quiet Single-Motor Uprights. Developed in response to the popular day cleaning trend, our re-engineered single-motor uprights come with enhancements such as the new True Balance Brushroll and an innovative sound dampening system that provides smooth operation and quiet performance. These features allow your staff to clean during the day, so they can help cut utility costs by turning off lights and HVAC at night. Your staff also will appreciate the more desirable daytime shift, which can help curb staff turnover and the additional funds required for training new employees.

QuietClean™ Uprights

Unsurpassed Filtration and Features. The washable Sealed HEPA filtration system captures 99.97% of dust and allergen particles 0.3 microns in size. On-board tools include a large diameter hose that resists clogging and reduces unexpected downtime for repairs. The hose stretches to 10 feet for maneuvering in large areas. Bagged models feature a safety lid which prevents operation without the bag in place. Our bagless models tout one of the largest dust cups in the industry. Combine all that with the choice of a 13-inch or 15-inch cleaning path, and you are sure to find the perfect vacuum for your cleaning needs.

Proven Design Improved Filtration The Perfect Green Solution

Quality You Expect. Features You Need. Part of Sanitaire's Green Clean line, these models combine ruggedness with easy-to-maintain designs and improved filtration systems. These traditional uprights feature the same design and powerful cleaning that you have come to expect with the dual-zipper, easy-access bag system. Choose from a 10-pound lightweight commercial model, to a 7-amp traditional, to a two-motor compact upright with folding handle.

Superior Cleaning Bagless Savings

Bagless Style. Our dust cup uprights are the perfect solution for those who don't want to manage or pay for disposable bags. These uprights provide immediate cost savings by eliminating the need to purchase bags. That means your staff can focus on cleaning and reduce time and money spent on maintenance. Our bagless models offer the same great cleaning system, and combine an outer bag with an easy-to-empty dust cup. Simply release two

Model

Dust Cup Uprights

latches, pivot the upper bag back and pull out the dust cup to empty. Reverse the process, and you are back to cleaning in minutes. Models range from 5 amp to 7 amp motors, molded and chrome hoods, 30- to 50-foot power cords. All are UL listed.

Eliminate Unscheduled Downtime. Our dust cup uprights are designed and built in our North American manufacturing facility with highly-efficient, extra long-lasting commercial motors for less maintenance and downtime. In addition, each model is covered by the Sanitaire Promise of Performance Two-Year Warranty.

High Capacity Bags Mean Fewer Stops for Maintenance

Less Stop. More Start. For those with large areas of carpet, a large capacity vacuum eliminates stops and starts and keeps productivity high. The Sanitaire shake out bags can handle a huge 18-quart volume. These cleaners have proven their high capacity ability with re-engineered, long-life motors that are built to last for many years. To empty, simply remove the bag with the quick-release clamp system, slide off the bag clip

CRI Seal of Approval

Sanitaire CRI Green Label™ approved vacuums can satisfy any job requiring a higher level of filtration. The CRI Green Label signifies a superior cleaning vacuum that has passed stringent testing for soil removal, dust containment and carpet appearance retention.

L.E.E.D. Program

Sanitaire is a member of the U.S. Green Building Council which developed the Leadership in Energy and Environment Design (LEED) program. For a vacuum cleaner to qualify for this designation it must be CRI approved and operate below 70dB. Sanitaire QuietClean™ models qualify and are designated with the statement, **LEED Compliant**.

Extended Motor Life

We have re-engineered our motor to include features such as integrated bearings and an enclosed carbon brush system. These enhancements result in a motor life of more than double that of our previous long-life version, and in reduced maintenance and downtime.

Washable Sealed HEPA Filtration

Only Sanitaire sealed HEPA vacuums with their patented filtration system capture 99.97% of all particles down to 0.3 microns for cleaner indoor air. Even the carbon dust emitted by the motor is captured. With Sanitaire sealed HEPA models you are not only cleaning the carpet more efficiently but also emitting only clean air back into the room.

Features and Benefits

Promise of Performance

The Sanitaire Promise of Performance Warranty covers parts, materials, workmanship and labor for a full two years. It is backed by a network of more than 1,200 warranty service centers across the United States.

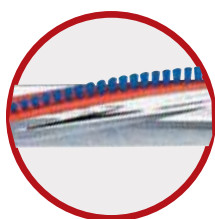

Quick Kleen

A clear polycarbonate cover allows you to view, service or access the impeller fan without removing the motor, reducing maintenance time.

True Balance Brushroll

Made from select hard maple, this double ball bearing brushroll is guaranteed to be in balance and provide superior cleaning with smooth, quiet operation.

Vibra-Groomer Brushroll

A tough, chrome steel, double ball bearing brushroll built to withstand commercial use. Choose from all-bristle and bristle/beater bar combination. Save on maintenance costs with replaceable bristle strips, so there is no need to replace the entire brushroll.

Why Sanitaire?

A History of Success. Sanitaire sets the standard for quality and performance in commercial cleaners. For more than 35 years we have manufactured our products in our own facility in North America, allowing us to control all phases of the manufacturing process and ensure the highest quality standards are met consistently.

Insightful Designs. We develop cleaning equipment from the ground up, using research and insights from the commercial end user. We talk to cleaning professionals — the people who use the product all day, everyday — and identify their problems before starting the design process. As a result, products like our lightweight commercial upright and QuietClean™ line offer real solutions to our customers' needs.

Personal Touch. Our sales team is committed to working with end users and distributors to provide training, communication and support for our cleaning solutions. We work hard to help cut costs, not corners. And that's a win-win for all concerned.

Full Service. Today, Sanitaire offers a comprehensive line-up that includes the vacuums for which we are known — uprights, canisters and backpacks — as well as industrial carpet cleaners, floor machines and air movers.

Quality, Guaranteed. All our vacuums* are backed by the Sanitaire Promise of Performance warranty which warrants parts, materials, workmanship and labor to further reduce maintenance costs and downtime. All Sanitaire products are backed by a network of more than 1,200 warranty service centers throughout the United States.

*Except models SC678, SC679 and SC689 which have a one year warranty
