

***Designed with chrome plated steel housings, these durable, high performance machines are built to last.***

*Our floor machine assortment ranges from a 1/2 horsepower, lightweight compact to a 1500 RPM 20" burnisher. Designed with chrome plated steel housings, these durable, high performance machines are built to last. The exclusive, quick connect handle on all of the models reduces the package size by 40%, allowing for convenient ground shipping. This provides savings in both shipping and inventory costs. Additional features include 50-ft. cords and safety shut-off switch.*
