Auto Scrubbers

# TIME IS MONEY

**WITH THE RIGHT AUTO SCRUBBER**, bare floor cleaning can be quick and easy. Without it, you are stuck with time-consuming work that involves messy mops, buckets and perhaps a few air movers for drying. Fortunately, there is a better way.

Sanitaire offers four auto scrubbers to fit every size floor. Whether your cleaning challenge is the corner grocery store or a large shopping mall, Sanitaire's time-saving auto scrubbers are designed to help you get the job done...

## ON TIME, EVERY TIME.

*Easy to use operator controls let you quickly change speed or direction.*

*Convenient foot-pedal activated squeegee and scrubbing pad on two larger units.*

*Multiple cleaning path sizes are available to fit multiple size cleaning challenges.*

The **14-Inch Tag Along Scrubber** with folding handle, rechargeable gel battery and 14-inch wide cleaning path is perfect for small- to medium-size restaurants, retailers, medical offices and classrooms. With its quiet operation and 80-minute run time, your floors are clean and inviting to customers in no time.

Take on medium to large floors with the **20-Inch Cordless Scrubber**. Clean, scrub and dry bare floors swiftly and efficiently with the 20-inch wide cleaning path and low-maintenance, long-running lead acid battery. The hand-activated squeegee and scrubbing pad make short work of high-traffic spaces.

For large bare floor cleaning jobs in malls, supermarkets and cafeterias, chose either the **28-Inch Cordless Scrubber** or the **32-Inch Cordless Scrubber**. Both feature direct-drive for straight tracking on slick surfaces and a long running lead acid battery that comes with a charger that plugs in anywhere. Both scrubbers employ a foot-pedal activated squeegee and rotating pads to make short work of long stretches of floor. Clean up to 47,000 square feet per hour with the 32-Inch Scrubber or up to 44,000 square feet per hour with the 28-Inch Scrubber. Just set the adjustable solution rate, and in no time your large high-traffic floor is clean, dry and ready for business.

**SWIFTLY CLEAN HIGH-TRAFFIC AREAS.** Whether you're replacing a mop and bucket with the 14-Inch Tag Along Scrubber or conquering a large arena with the 32-Inch Cordless Scrubber, Sanitaire's four "Ultimate Time Machine" auto scrubbers are built to last with the time- and money-saving needs of professional cleaners in mind.

**CONVENIENT OPERATION.** From the foot-pedal operated squeegee on larger models and easy to use controls to the direct-drive tracking on slick surfaces, saving you time is always the primary goal at Sanitaire.

**BATTERY POWER TO FIT THE JOB.** Whether your priority is convenience or extended run time, Sanitaire has the time-saving auto scrubber to fit your needs. A rechargeable gel battery powers the 14-Inch Tag Along Scrubber for up to 80 minutes of run time, while the 20-Inch Cordless Scrubber will run up to 4-5 hours. The 4-5 hours of run time offered by the 28-Inch Scrubber and the 32-Inch Scrubber is perfect for large bare floor cleaning jobs.
